Who We Are...

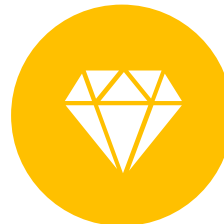

Establishment

INSITU is located in Bangkok-Thailand, and Ho Chi Minh-Viet Nam, and is a private company founded in 2015 by a team of veterans in the software industry. It has been offering solutions in the area of indoor-monitoring, indoor analytics, indoor-tracking, and location-based services on demand since 2016

Evolution

In 2017 INSITU has decided to release it's as a Software Development agency, and Module Electronic manufacturer, using our own object detection proprietary algorithms from hardware to software

Mission

At INSITU, our mission is to provide innovative, cutting-edge systems using wireless processing technologies, by working with software development companies and OEMs to deliver top-level systems
